

Name _____

Chemistry

___/___/___

Chapter 1 Vocabulary - Define each of the following on a separate sheet of paper. All definitions must be hand written.

1. accuracy
2. allotropes
3. atom
4. centrifuge
5. chemical change
6. chemical properties
7. chemical reaction
8. chemical symbol
9. chemistry
10. chromatography
11. compounds
12. decant
13. deposition
14. distillation
15. element
16. endothermic change
17. energy
18. evaporation
19. exothermic change
20. extensive property
21. filtration
22. gas
23. heterogeneous mixture
24. homogeneous mixture
25. intensive property
26. kinetic energy
27. law of conservation of energy
28. liquid
29. magnetism
30. mass
31. matter
32. mixture
33. molecule
34. phase
35. physical change
36. physical properties
37. potential energy
38. precision
39. pure substance
40. qualitative measurement
41. quantitative measurement
42. solid
43. state
44. sublimation
45. volume

After completing this assignment you should take the following quizzes at: www.sartep.com/chem.

- chapter 1 vocab matching quiz 1
- chapter 1 vocab matching quiz 2
- chapter 1 vocab matching quiz 3
- chapter 1 vocab matching quiz 4
