

Name _____

Chemistry

___/___/___

Chapter 11 Vocabulary - Define each of the following on a separate sheet of paper. All definitions must be hand written.

1. alloy
2. boiling point elevation
3. colligative properties
4. colloids
5. concentration
6. conductance
7. dilution
8. electrolyte
9. emulsion
10. emulsifying agent
11. freezing point depression
12. immiscible
13. insoluble
14. miscible
15. mixture
16. molality
17. molarity
18. saturated
19. solubility
20. soluble
21. solute
22. solution
23. solvent
24. supersaturated
25. surfactant
26. suspension
27. unsaturated
