

Name _____

Honors Chemistry

___/___/___

Chapter 9 Vocabulary - Define each of the following on a separate sheet of paper. All definitions must be hand written.

1. activation energy
2. calorie
3. calorimeter
4. endothermic change
5. energy
6. enthalpy
7. entropy
8. exothermic change
9. heat
10. heat of condensation
11. heat of fusion
12. heat of solidification
13. heat of vaporization
14. joule
15. kinetic energy
16. law of conservation of energy
17. potential energy
18. specific heat capacity
19. spontaneous change
20. temperature
